

Green Spires Caragana

Peashrub Tree Form

(*Caragana frutex* x *arborescens* 'Jefarb')

A very hardy small tree form, Green Spires™ Peashrub has an upright to rounded form and low canopy. Growing at a medium rate, its yellow flowers bloom heavily in the spring and are seldomly followed by seed pods. The dark green pinnately compound leaves turn yellow in the fall. The bark is a smooth olive-green. Disease and pest resistant; as well as, drought, salt, and urban pollution tolerant. Use it for hedges, screens, windbreaks and naturalizing in full sun.

Characteristics

<i>Height</i>	12'
<i>Spread</i>	8'
